

FACES AND FIGURES THROUGH TIME

Join six Princeton University Art Museum docents as we look at and discuss faces and figures through the history of art — sculptures, portraits and more — from ancient times through the present day. How has the portrayal of faces and figures changed and how has it remained the same? What cultural icons are portrayed in faces and figures? How do different portrayals reflect different eras? The docents will discuss faces and figures in art in the context of historical times and cultural influences.
